DUMP THE PAPERWORK NOT THE TRUCKS

Elevate Your Construction Projects

Tragget empowers construction sites with efficient dump truck solutions that save both time and money. Plan and execute your projects with precision, ensuring success at every turn. It's time to take your construction endeavors to new heights with Tragget.

Modernize your trucking

tragget

Who we are

- Traget is a forward-thinking technology company.
- We are a team of innovators passionate about transforming the trucking industry.
- Our mission is to simplify and enhance trucking operations for everyone involved.

What we do

- We provide a cutting-edge cloud-based platform for efficient trucking management.
- Traget streamlines processes from dispatching to invoicing.
- Our platform fosters real-time communication and collaboration.
- We offer flexible subscription plans to meet varying business needs.

Whom we serve

- We serve a wide range of stakeholders in the trucking ecosystem.
- Our clients include dump truck companies, drivers, construction sites, and brokers.
- Traget bridges the gap between all parties, promoting efficiency and growth.

	Traditional way	Traget
Dispatching	Manual, inefficient scheduling	Quick and optimized dispatching
Tracking	Post-job discovery of tickets; delayed, unclear job progress	Pre and post-job transparency with 24/7 real-time job tracking
Invoicing/billing	Error-prone, manual invoicing	Fast, accurate automated billing
Communication	Disconnected, non-existing communication	Unified platform for clear, collaborative communication
Business growth	Limited growth due to inefficiencies	Enhanced scalability and growth opportunities
